

8.20 ~~A furling device for headsails is prohibited.~~ A headsail furling device may be fitted instead of a fixed forestay deck fitting. Furling of the headsail is prohibited while racing.

8.60

~~No device other than a topping lift is permitted applying vertical lift to the main boom.~~ The mounting points of a topping lift shall be above the M.B. No. III and abaft the boom M.B. ( boom point ).

9.21

The mainsail shall comply with the measurements on the measurement diagram.

The luff of the sail shall either have a continuous bolt rope which shall be within the full length of the mast groove while racing or the luff of the sail may be attached to the mast by slides.

The foot of the sail shall have a continuous bolt rope which shall be within the full length of the boom's groove while racing.

9.24

The outside lengths of the batten pockets shall not exceed:

Top 800 mm

Lower three 1050 mm

13.10

There shall be two or three persons on board while racing. Only if the total weight of three crew members does not exceed 200 kg, the crew may consist of four persons. The number of persons may be specified in the Notice of Race. A boat shall compete with the same number of persons throughout an event. Any change of person (crew) shall be approved by the Race Committee.
